CHALLENGES

WE CONTINUED TO FACE

Research suggests that two out of three pregnant people who have abortions anticipate stigma if others were to learn about it.

(Women's Health Issues, 2011)

84% of clinics experienced at least one form of anti-abortion harassment in 2011.

(Guttmacher Institute, 2014)

At DCAF, we are here for our patients, no matter their circumstances or why they chose to have an abortion.

46%

of Americans are unable to cover a **\$400 unexpected expense.**

(Board of Governors for the Federal Reserve)

While abortion costs vary from state to state, **the national average for a surgical abortion in the first trimester is around \$500.**

(Guttmacher Institute, 2014)

58%

of women aged 15-44 enrolled in Medicaid live in places where Medicaid does not cover abortion, except in limited circumstance.

(Guttmacher Institute, 2016)

Restrictions designed to deny access to abortion care disproportionately affect people living with low incomes. We strive to make "choice" a reality.

A PERSON'S RIGHT TO HEALTH CARE SHOULD NOT DEPEND ON THEIR WALLET.

The DC Abortion Fund (DCAF) is an all-volunteer, 501(c)(3) nonprofit that makes grants to pregnant people in the DC area, as well as those traveling to the area, who cannot afford the full cost of an abortion. DCAF is the only organization in DC that focuses solely on providing this service in our community.
